

Weekly Shipment Reports: Shipments to date for each area and each variety + projections for the remainder of the crop year based on data collected by UPGA Supply & Demand Committee.

Shipment history and projections updated weekly for 22 growing areas, 2 regions (Southwest and Mid-Atlantic), Canadian imports, and total national shipments.

The screenshot shows the UPGA website's 'WEEKLY MARKET DATA' section. It includes navigation links (Home, Members-Only, Meetings, About Us, Partners/Sponsors, Affiliations) and a user greeting 'Hello George'. Below the title are buttons for 'GRI Report', 'Russet FOB', 'Prices', 'Retail Ads', 'Truck Rates', and 'Other Reports'. The main feature is a map of the United States titled 'Fresh-Potato Shipments', which displays 'Weekly Shipments to Date and Forecast for Remainder of Crop Year'. The map is divided into 'Canadian Imports' and 'National Shipments' and is marked with 22 growing area abbreviations: SV, CB, RRV, MN, WI, MI, NY, ME, ID, nCO/NE, DE, VA, NC, STO, KC, IV, AZ, TX, SLV, KS, SW, ATL, and FL.
